The railroads and hotels have made special rates for those attending. It is hoped that physicians in West Tennessee especially will take advantage of this opportunity to join the State society and participate in its proceedings. An interesting programme will be arranged for each day.

-Attempts, as weak as they are malicious, have been made to misconstrue the attitude of Justice J. w. Coleman to the office of Coroner, which is to be filled by the County Court next week. He has never been a candidate for the office. For some time he positively declined to allow his name to be used in that connection. A short time since he yielded thus far, as to promise to accept the office if elected. But every effor, that has been made to induce him to canvass for sotes has been futile. He stands upon a high plane, and he will be elected.

Needham, the evangelist, whose work has b en so successful of whose work has been so successful of late in Virginia and Texas and the Northwest. Mr. Needham is not an ordained minister, but only a lay member of the church, like Moody and Sayfor!. THE Cincinnati Price Current says:
The weather in the Sour in has been for farming operations, and good progress has been made in preparing the ground for seeding, while in the more for farming operations, and good progress has been made in preparing the ground for seeding, while in the more southerly portions corn-planting has been finished and cotton-planting commenced. The question of reducing the acreage in cotton and increasing that of other crops is attracting much attention in the public journals, but probably the practical men who do the planting will not be materially influenced thereby. It is quite likely that more corn will be planted in some places and that the natural increase in the area of cultivated land will be more generally assigned to other crops than cotton, where they can be made to pay better, but while all planters are in favor of having their neighbors decreage their acreage. all planters are in favor of having their neighbors decrease their acreage of cotton no one is willing to take this prescription for home use, and, with a favorable planting season, it is more lively that there will be an increase than a decrease, taking the country as a whole."

The Manchester (Eng.) Guardian, in a recent issue, says: "Quietness has prevailed throughout the market, and in no leading department has the business reached an average amount. Producers of goods are, fort nately, though in very varying degree, pretty well supplie: with orders, and pressure to sell on their part is not very met with. Otherwise the fresh busi-ness now obtainable would certainly not be sufficient to give the cloth mar ket the appearance of stability which it undoubtedly possesses. Broadly speaking, it may be said that the strength of the market rests in the extensive business which has been already done for India. By thi means the production for other quarters has been and is still being greatly elieved, and the hope of the market is to be found, if anywhere, in a continuance of the India demand. The dar-er side is the extreme sluggishness of the yarn departments, which continue to show signs in nearly all directions of excessive supply. Here and there spinners are beginning to curtai the production, but there is no sign of a general or even extensive movement in this direction. The recent sport in the cotton marret has done harm rather than good here. It has induced a slight hardening of quotations, which has tended to check business all round, and buyers have not yet made up their minds to resume operations on a normal scale.

MEMPHIS BELLES

The Handsomest in the South and Its Men the

BEST DRESSED!

The Pride of the Mississippi Valley.

A New York drummer, who travels over the entire country, was bragging about the advantages of living in Gotham, but he had to admit that in the Misfit Clothing Parlors, 262 Second street, Memphis has the best and cheapest clothing house in the United States. He also had to concede that the Memphis girls are the prettiest in the country and that the men here, as a general rule, are better dressed than those of any American city.

Memphis men can afford to dress well. The Misfit Clothing Parlors gives them the advantage of buying fine merchant tailor's clothing at about one-half its actual value.

The Misfit Clothing Parlors believe in bragging when it has something to braz about. We have been busy during the past two months hunting up bargains for Spring. We now have our Parlors packed with beautiful new goods. Better s'ill, our prices are wonderfully low. Come quick and inspect these handsome goods. Remember, all alterations to in-

sure a perfect fit done free of charge by a first-class tailor.
